

One digit for the hand:

Serrature:

- 0 = reversible
- 1 = right hand inwards
- 2 = left hand inwards
- 3 = right hand outwards
- 4 = left hand outwards

Electric strikerst:

- 0 = reversible
- 1 = right hand inwards
- left hand outwards
- 2 = left hand inwards
- right hand outwards

Panic exit devices

- 0 = reversible
- 1 = right hand outwards
- 2 = left hand outwards

Two digits which **must always be the 10th and the 11th**, defining a **FINISH** other than the standard ones. Use the **green codes** from the finishes list.

Two digits which **must always be the 12th and the 13th**, defining **PERSONALIZATION**, if any. Any personalization must be **previously agreed upon with CISA** who will assign the relevant code.

Two digits which **must always be the 14th and the 15th**, defining any **SPECIAL EXECUTION**. Use the **red codes** from the special features list. Orders for uncoded special features must be accompanied by a description.

EXAMPLES:

1) When ordering a **basic item** from the list specify the code up to the hand digit. For example, to order a cylinder:

1 | 08710 | 070 | | |

3) When ordering a personalized item, for example a **cylinder with a customer's design feature**, indicate:

1 | 08710 | 070 | 00 | MR |

where MR is to be assigned by CISA

2) When ordering an item with a non-standard finish, for example a **nickel-plated cylinder**, indicate:

1 | 08710 | 070 | 12 | |

4) When ordering a special item, for example a **KA cylinder**, indicate:

1 | 08710 | 070 | 00 | MR | KA
